A discussion follows the video series of talks or videos that address issues facing young adults, their parents and the young at heart! Future Topics include Science and Faith; Social Media issues; and others to be announced.

This is the first "mini-camp" of four discussion topics we will present this winter and spring that address issues facing our younger members. This is Session 1. Fr. Patrick McGrath, S.J. spoke to the OLPH Ministry Leaders in November and we recorded his remarks.

As the President of Loyola Academy, Fr. McGrath holds unique perspective on the issues facing youth people today. There is a great that Fr. McGrath discusses that is relevant to everyone in this 50 minute video presentation.
